We hear on the grapevine that a record-breaking pumpkin appeared at the Dwellingup Pumpkin Festival on the weekend.

Robert Giumelli's 361kg pumpkin broke the WA record for heaviest pumpkin, which was previously 313kg and held by growers in Albany. It was a one-two finish for the Giumelli family, with Robert's wife Judy coming in second with a 293kg pumpkin.

As for what one might do with a 361kg pumpkin, it's obvious: hollow it out to make a horse-drawn carriage and drive it to the nearest

royal ball.

Then fool some prince with a foot fetish into thinking you're a member of the aristocracy.

You'll live happily ever after, trust us.
